

Infantry-Only Event

Phasing:

Subunit briefing:	TBA	TBA	CET
Time of arrival for all participants on TS3:	06.04.2019	1900	CET
Event start:	06.04.2019	1930	CET

Mods used:

@cba_a3; @ace3; @ACRE2; @rhsafrf; @rhsusaf; @rhs_Compat_Russ; @rhs_Compat_USA

Group build-up:

Any participating unit should, ideally, field an entire group with all its available slots. Units who don't meet that criteria, or single participants, are obliged to coordinate with the event staff of the SOB. The exact disposition of the available groups and slots can be viewed via our [official website](#). Loadouts and equipment are provided by the SOB. Adjustment of said loadouts and equipment is only possible in a limited manner.

Registration:

A strength report of the individually participating units should be made until the date of: **02.04.19**. The strength report can be stated within each of our usual lines of communications. At most 80 players may participate in the event.

Teamspeak:

In order to connect to our TS3 server a TS client with the version 3.1.x is necessary. Such a client can be obtained via following link: https://filehippo.com/de/download_teamspeak_client_64/.

Repository:

A Swifty-Repository, which **exclusively** can be obtained via **Swifty v3** (<https://getswifty.net/download>) has been provided under the following address: <http://62.138.3.13/Repos/Infantry-Only/> Instructions on how to use Swifty can be found [here](#) (in German). Should any questions arise, concerning the configuration of said repository, feel free to contact the SOB staff using the provided TS address. The repository **will be shut down on the day of the event itself** (1700 CET)

Test server:

The test server is available from **01.04.2019 (1900 CET)** until **06.04.2019 (1700 CET)**. Participants may connect to this server using the IP/Port: **62.138.3.13:2352** for testing purposes. The password for the test server is: „Falke“. Should questions concerning technical difficulties or problems arise, please contact OLT Normen, or one of our staff members on TeamSpeak or Discord.

CBA Settings:

The Server Settings that will be used for this event can be seen on this [GitHub gist](#).
